

ATHENA EDITIONS – WHO ARE WE ?

WHAT ARE OUR PUBLISHING GOALS ?

- ✓ Create books that offer genuinely worthwhile content, while respecting our readers and their status as the responsible citizens of tomorrow. This is why **readers who start reading our books when they are nine or ten carry on reading them into adulthood** – and they often do extremely well at school, too! Our books cater to a range of reading levels.
- ✓ Create books that offer a fresh take on their subject matter, backed up by comprehensive historical research – books change the way we think, so they should always give readers something meaningful to reflect on. Books should follow a particular approach; ours emphasises the humanities !
- ✓ Create books that serve as lasting sources of information, instead of simply being novelties that boost bookshops' sales... This is why we publish very few new books, but continue to see our collections sell well twenty-two years after our titles first appeared. We are an independent publisher, and not part of any broader 'book industry' that operates solely according to financial criteria.
- ✓ Create books that are primarily written with readers in mind; based on the letters our readers send us, it's a technique that works! Proof of the broad and devoted reader base that we attract is apparent from the letters we've published on our website, where PDF extracts from some of our books are also available.

- ✓ Specially written for young readers, each of these books tackles a neglected part of a legendary story. The first title in the series – The Trojan Horse – offers an account of the fall of Troy, an incident that is mentioned only in passing in both *The Iliad* and *The Odyssey*.
- ✓ Clapat's illustrations bring key moments from each tale to life.
- ✓ Each book also includes a 'Meet the Heroes' section – an illustrated list of the story's main characters.
- ✓ Each book starts or ends with one or several maps, helping to fuel readers' imaginations as they learn where the story takes place – think back to the thrill you got as a child, when you first saw Robert Louis Stevenson's map of Treasure Island...
- ✓ Another special feature of the books is the list of 'Potentially Tricky Words' (with definitions provided) that appears in each, helping to expand readers' vocabularies.
- ✓ Like all the books in our 'Illustrated Books for Young Readers' collection, this series embraces the ATHENA philosophy – *Making learning fun!*

SERIES : « 200 QUESTIONS AND ANSWERS »

Format : 200 x 240 mm, 240 pages, 120 gsm paper, stitch binding, 270 gsm flexibound matt-finish covers, rounded spine. RRP : 24 €

Greek Mythology : 200 Questions and Answers

Everything you need to know about Greek myths and legends!

Coming soon ...

We all think we know *The Iliad* and *The Odyssey*, but despite their length, both poems omit key elements of the stories they describe. Recall that the plot of *The Iliad* takes place over just fifty days, while the Trojan War lasted ten years... The narrative focuses on the angry Achilles, who has had his beloved concubine Briseis taken from him... Most of the events that enable us to understand Homer's poems and fully appreciate what motivates his protagonists take place before *The Iliad*, after it, or are simply other incidents from the Trojan War – while Homer does not include them, these vital narrative details are recounted by other authors...

SERIES : « OVER 100 QUESTIONS AND ANSWERS »

Format : 215 x 150 mm, 128 pages, 90 gsm paper, stitch binding, 270 gsm flexibound matt-finish covers with end flaps, rounded spine. RRP : 11 €

A note to readers:

« This is a very special book – you can start reading it wherever you want! Flick through and stop at any page... Every answer to every question offers you amazing new insights and clears up any misunderstandings you might have. Alongside each block of text, there's a hilarious cartoon, as well as web addresses for you to visit if you want to find out more... It's a fully interactive publication! This is history, presented just the way history lovers would want it to be – and with this collection, you're well on your way to becoming a history buff yourself! Prepare for a rip-roaring read, as you learn a wide range of essential facts... »
